

## Section-by-Section Analysis

In support of the Secretary of Defense's Efficiency Initiatives, the Department of Defense is recommending a realignment of agency responsibility for supporting the Ocean Research Advisory Panel (ORAP) by transferring responsibility for administration of that Panel from the Department of the Navy to the National Oceanic and Atmospheric Administration (NOAA) of the Department of Commerce. The Administration believes that this change is consistent with the function of this advisory board.

The Administration believes that the support responsibilities of ORAP are more appropriately aligned under NOAA. This change would not affect or diminish the statutory authorities of the National Ocean Research Leadership Council (Council) or the National Oceanographic Partnership Program, or their respective relationships with the ORAP. The changes made by this section would allow the functions of the ORAP to be aligned more appropriately to address the full range of ocean, coastal, and Great Lakes policy issues as they relate to the expanded Administrative responsibilities directed by the President in Executive Order 13547, "Stewardship of the Ocean, Our Coasts, and the Great Lakes."

To address the ongoing role of the ORAP to provide advice on the selection and allocation of resources for partnership programs, the Administration is recommending that ORAP be redesignated as the Ocean Research and Resources Advisory Panel (ORRAP).

**Changes to Existing Law:** The proposal would make the following changes to existing law:
